

## General Track Information Table

Hall Stage are a world leader in the design & fabrication of specialist Heavy Duty curtain tracking for the theatre & entertainment industry. The Company proudly advertised that it had manufactured over 1,000,000 yards of track - back in 1963!

Since then, production has continued at the same pace and become much more efficient. Over 8 miles of track was despatched to satisfied customers from our new factory in 2005 alone and our delivery times are now the best in the business.

Hall Stage makes curtain tracking systems for almost every application, material or fabric.
